CHI'S CO. T, knitted, see 1917. A color photograph is given to this pattern. The author of *Cable Pattern and Knitting*, H. S. Reigan, shows and describes a number of different cables. The length of a cable is given as 10 cables.

**Materials:** 10-055 4-ply, BEA HIVE Scotch Fingering, Two No. 8 Ballad Knitting Needles, and a short one of the same size for the cable pattern. Four Duffers. Work at a tension to produce about 20 stitches and 14 rows to the inch, measured over the plain knitting. Commencing with the cable pattern, the first 17 rows cast on are stitched thus: Work 18 rows in plain knitting, then commence the pattern as follows:—

[illegible]

Continue to work the edge straight to the neck, one row where the stitch was at the beginning of the neck. (20 stitches on the needle.) Leave ship deck at the lower edge and knit the neck edge in each row while the ship deck alone, thus saving more stitches by keeping the lower edge straight. Once in each row at the neck edge until only 80 stitches remain.

Work one inch without shaping, finishing at the lower edge, making rows to give values to the turn. K 1, P 1, K 10, to

Keeping the lower edge straight as before, **sh** the armhole by making a decrease in each row until the piece measures 22 stitches. Work 3 inches without shaping, a 1-inch decrease once, the shape is shown in **ex** by how small only 80 stitches remain. Finish at the lower edge, this makes a size K 65 (30 inches).

A vibrant, close-up photograph of a garden. The foreground is dominated by a large, dark green leaf with prominent veins, partially obscuring the view. Below it, a cluster of small, bright yellow and orange flowers is in bloom. The background is a dense, out-of-focus mass of various plants, including more yellow and orange flowers, green leaves, and some purple blossoms. The overall scene is a lush, colorful display of spring or summer flora.
